

Angeline Rusu

Angie has been a general and OBGYN sonographer for 4 years. She's currently working all over the San Diego area doing contract work at several hospitals and outpatient settings.

She has taught physicians and nurses on 4 sonography teaching trips to Haiti, Malawi and the Philippines, with Hope Imaging. Her love for travel and teaching has brought her to Sparrow Solutions.

She loves people, different cultures and adventure. This may come from her Romanian roots.

This season is a new one for her, where she will grow her teaching skills not only in the field but also in the classroom. Angie is hoping to graduate with her bachelors in Sonography in 2018.

She's really excited for what God is doing in her life, how He's leading her and what He's going to do next!
