

Cassaundra Kemp, BS, HSA, RN

Cassaundra served as Nurse Manager for two pregnancy medical clinics in the Atlanta area for approximately 4 years. She was heavily involved in their medical conversion process. She took on the Nurse Manager role as a new graduate nurse with a background in Health Services Administration.

She is so thankful for the opportunity to have served in this life-affirming setting and strongly believes that the Lord placed her there to fully embrace the sanctity of human life which prepared her and her husband, Randall, to welcome their amazing son, Joseph, who has Down syndrome. Aside from being a child of God, Cassaundra feels that her highest calling is to be the mother of this wonderful almost-6 year old little boy who brings delight to the hearts of all he meets!

Cassaundra has assisted SSG with the development of the Sound Foundations curriculum, Care Plans, Care PATHs and policy and procedures based on AAAHC guidelines.

She holds a certificate in Faith-Based Nursing and currently works as a project manager/consultant for the corporate office of the largest non-profit, faith-based organization in the nation.
