Equipment Facilitation

When it comes to equipment purchases, it's important to have professionals who specialize in ultrasound equipment assist you by doing their research in technology, pricing, support and service, and what unit is best overall for your clinical setting.

The *Sparrow Solutions Group* has done just that.

SPARROW VALUE

- Our experience and expertise in the unique world of PMC ultrasound works for you
- Save valuable research time
- Prevent regret from purchasing sub-optimal equipment

We have experts in place to work with you and your team as you research, select and invest in an imaging system to be used in your PMC.

At *Sparrow Solutions Group*, we offer a support service called **Equipment Facilitation** which is a complimentary service focused on providing the tools that leaders in the Pregnancy Medical Clinic need to make the most informed decision on their ultrasound purchase, allowing you to do what you are uniquely equipped to do - ***reach your community for life.***

Scope of Service:

Sparrow Equipment Facilitator will assist you in reviewing the information you gather and provide tools that can help you determine which unit is the best fit for your clinic.

Some of the steps Sparrow takes to assist you are:

- Review options
- Outline “value adds”
- Provide impartial facts to assist with decision making
- List strengths and weaknesses of equipment companies and products
- Help facilitate order placement and installation details

While Sparrow research has found a number of select manufacturers to be optimally suited for the PMC market, our experts are knowledgeable and approachable about many equipment companies and products and are available to answer your questions.

Fees: There is no fee for this complimentary service.
