

# Robin Fuller

Robin received God's call to help women in 1988. Her experience with two unplanned pregnancies, one ending in abortion and the other in the birth of her first son, has grown into a passion to protect life on many levels. Robin leads with vision to see a culture of life embraced from many perspectives: the teenager facing temptations of sex outside of marriage, to the woman facing an unplanned pregnancy, to the community at large. As the Director of two different pregnancy centers on the front lines spanning 21+ years, her vision combined with her desire to lead with excellence, has had a profound impact on those she serves.

During Robin's time at the Pregnancy Care Center of Grants Pass, they became the 4<sup>th</sup> pregnancy center in the nation to achieve accreditation with AAAHC. She and her staff wrote and implemented an abstinence encouragement program currently in 100% of local middle and high schools. She also brought their center from a \$60k annual budget to over \$500k in 14 years.

Robin has a bachelor's degree in Social Work and is a Life Coach helping women in leadership positions walk closely with the Lord as they improve their leadership skills. She has been married to Steve for 25 years and has three adult sons.
