Clinical Imaging 3

This 6 month course is for the sonographer who desires to achieve the credential of RDMS.

As an RN, PA, NP, CNM scanning in the PMC, it is an achievable credential. According to the Code of Ethics for the Sonographer, anyone who provides ultrasound imaging is always working towards becoming credentialed.

Most medical professions categorize themselves as life long learners. With that in mind, credentialing in your area of practice may be a next step for you and your career path.

This course requires self-study as well as hands-on training. We customize the timing of the hands-on, based on your schedule needs.

Program Overview

Scope of Service:

- Two 32 hour sessions of hands-on instruction from an RDMS registered in OB/GYN, 8 (8-hour days), split with 4-6 month distance education
- 6 month distance education program, monthly consultations include cases reviewed to prepare sitting for the Registry including pelvic and obstetric ultrasound exams
